 PIPSO.ORG.FI/STAYOPEN

BECOME A DISASTER-READY BUSINESS.

Testing phase

- Three exploratory sessions with private sector
- Desk research and Pacific based disaster costing
- Working group development and advisory role
- Development of toolkit and message testing
- Post-testing feedback

How this toolkit works for you

- Helping partners understand need for private sector partnerships (Private Public Partnerships)
- Providing engaging evidence on the impact of disaster in the region
- Supporting communities, staff, suppliers and businesses to be disaster prepared and resilient

Where to from here?

- Private sector led
- Engagement with governments and training-of-trainers to ensure understanding flows downwards
- Message testing at community levels and development of tools for micro business sector
- Translation into vernacular for the region

Thank you *the greenhouse studio*
